

Product Information – Woodland Management

We provide both professional and operational services to help woodland owners enhance the amenity and ultimately capital value of their holdings.

Both Directors hold degrees in Forestry and Forest Economics and our divisional Director, Tom Compton, is a member of the Institute of Chartered Foresters.

Currently the company manages around 6000 acres in Sussex, Surrey and Kent, but is also able to take on one off contracts.

Professional Services include:

- Woodland management working plans and planting schemes
- English Woodland Grant Scheme and Felling licence applications
- Timber marketing and volume assessments
- Investment purchase reports
- Day to day management.

Our team of employed forest workers and machinery contractors are able to carry out:

- Thinning, selective felling and clear felling of hardwood and softwood
- New woodland planting
- Ride grading and maintenance
- Bracken and weed control
- Lake/Pond Construction
- Gates and Fencing
- Tree Surgery
- Heath land Restoration works
- Bridge construction.
